Forecast For East of England
Issued by Met Office Exeter
at 0400 on Thursday 28 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Heavy rain at first, becoming drier later.

Today:
A wet morning with outbreaks of heavy and persistent rain, steadily easing although remaining damp across Norfolk during the afternoon. Brighter skies will develop elsewhere where it will become mild. Maximum temperature 12 deg C (54 deg F).

Tonight:
Mainly dry through the early evening before another spell of heavy rain arrives and clears soon after midnight. Skies will then become clearer again with scattered showers. Rather mild. Minimum temperature 7 deg C (45 deg F).

Friday:
Mainly dry and bright on Friday morning with sunny spells and a few isolated showers. Turning cloudier in the afternoon with occasional rain and drizzle. Feeling colder later. Maximum temperature 10 deg C (50 deg F).

Outlook for Saturday to Monday:
Starting bright on Saturday, but perhaps turning cloudier with snow possibly reaching southwestern parts later. Sunny on Sunday and Monday with a risk of snow overnight. Cold with widespread frost.
